CONDITION OF THE MARKETS

Wheat Opens Strong and Buoyant, but Heavy Selling Causes a Decline.

Corn Fluctuates Within a One-Cent Range and Closes at Thursday's Figures-Oats Active-Light Business in Provisions.

MONEY, BONDS AND STOCKS.

Marked Activity in New York, Yesterday's Business Showing a Large Increase. NEW YORK, July 6 .- Money on call was easy at 101; per cent., closing at 101;

Prime mercantile paper, 306 per cent. Sterling exchange was dull, but steady and

unchanged. The total sales of stocks to-day were 189,988

shares, including the following: Delaware, Lackawanna & Western, 26,560; Erie, 2,840; Lake Shore, 5,821; Missouri Pacific, 12,725; Northwestern, 12,860; Northern Pacific preferred, 8,700; Oregon Transcontinental, 4,500; Reading, 18,390; St. Paul, 36,620; Union Pacific, 8,175; Western Union, 9,555. The stock market awoke from its stagnation

to-day, and, though the transactions of the day do not foot up any very large amount, they are greater than the previous three days of this week put together. There were good buying orders in the market this morning, and commission-houses again appeared as purchasers, which gave the speculation a much more legitimate appearance than it has possessed for some time; at the same time Chicago sent buying orders in the grangers, and an interview with Mr. Armour, in which he expressed very decided bullish views on St. Paul, gave that stock the lead, and, though the "bears" matched the interview with a dispatch saying that the gentleman mentioned had not bought a share of St. Paul, it failed to have any appreciable effect upon the course of prices. Naturally, the grangers took the first place in the dealings, and Rock Island became conspicuous for its strength, followed by Northwestern and the rest. The Gould stocks came next in prominence, Manbattan and Missouri Pacific being very strong, and the latter quite active once more. The "shorts" ran to cover and swelled the volume of business though the advances made are out of all proportion to the transactions recorded. The Oregon stocks and Northern Pacific preferred were features, the announcement that the syndicate had sold the rest of the third mortgage bonds in Europe creating a demand for the last mentioned stock. The coalers were not far behind the leaders, and Lackawanna was specially prominent, especially in the afternoon, advancing rapidly, while Reading was comparatively quiet. The opening sales were made at small advances over yesterday's final prices, and the market began to advance immediately with Rock Island and Oregon Improvement especially strong, while all the usually active list made marked gains. There was a very fair business done during the morning hours, and most of the advances were made before noon, but while there was marked falling off in the smount of business done after that time, the firm tone continued throughout, with Lackawanna, St. Paul and Missouri Pacific leading in turn. No set-back of importance occurred, and the close was quiet but strong at the best prices of the day. Pullman was exceptional in showing a loss this evening, being 11 per cent. lower, but Manhattan rose 2; Lackawanna, Oregon Improvement and Missouri Pacific, 14 each; Rock Island, 14; St. Paul and Jersey Central, 14 each; Northwestern, 1; Lake Shore and St. Paul preferred, 1 each.

Recent disbursements for interest and dividends began to show in the increased demand for good bonds to-day, and the total sales reached \$1,679,000, of which Texas Pacific seconds contributed \$257,000 and Jersey Central new fives \$128,000. There was a good supply, however, and though the tone of the dealings was firm to strong throughout the day, the final changes in quotations are generally for fractions only. The important advances include Northwestern debentures, 2, to 110: Detroit, Macki-nack & Marquette land grant, 3, to 37; and Utah

South general sevens, 2, to 100. Government bonds were dull and steady. State bonds were dull and steady. Closing

Cheese dull and easy; white and colored flat, 7@8tc.

CHICAGO, July 6 .- Wheat was uncertain today. The opening was strong and the market apparently buoyant, with as good, if not better, "bull" influences than on Thursday, when it advanced 2c. The early strength was very deceptive to the crowd of followers, as it was followed first by heavy realizing by the principal "longs" here, and later by selling for further reaction, which came sooner than expected on selling orders from New York on account of the foreigners. The collapse of the little advance was not surprising, when it is remembered that it was worked upon weather reports and cables from the other side, on which foreigners bought only to realize at the first opportunity. The clearances, however, kept up well and to-day were 109,000 bushels at New York, about half as much as was received at all the primary markets. There is still a big line of "long wheat not delivered for the month, and July was at one time to premium over August, but later the gap was reduced to ic. August sold to open at 82% up to 83c, down to 82%, and then, shortly after noon, went off to 81%c, from which point the rally was feeble. September sold up to 83 e early and declined to 82 c. There was little or no rally before the close and prices left off as follows: July, 821c; August, 811c; September, 812c. Corn closed, after ic fluctuations for the session, at about last night's prices. August was ic higher and September ic lower than last night. July ranged at 48 c and 48 c, closing at 49 c; July sold at 50 250 c early, declined to 49 c on realizing, and after a rally to 491 @ 50c went, in twenty minutes before the close, to 491c, and rallied at the close to 491c; September sold between 49 c and 50 c, closing at 50c. An element of strength was the large out-inspection of 477,000 bu. Cables were also firm and the export movement good. The principal interest in oats was in July, and the price ranged from 314 @ 324c, closing at the outside for the day. August soid at 26c and 264 @ 263c, closing at the inside for the day. September closed at 25fa. A moderate business was transacted in lard and a stronger feeling developed; prices advanced . 10 @. 12 c. Closing sales were at outside figures. "Shorts" were the principal buy-ers, and offerings were rather light. August sold at 8.20 @ 8.27 to, and closed at 8.25 @ 8.27 to.
The year was in better request and sold at 7.47 27.52 c. Short-ribs and pork were slow, but prices advanced .02 20.05c. August pork was purchased at \$13.55 2 13.62 c. and closed at \$13.574; short ribs sold at 7.624 @ 7.65c. The

DUN & CO.'S REVIEW.

The Situation Changes a Little, and that Lit-

tie Is Fraught with Promise. NEW YORK, July 6 -R. G. Dun & Co., in their weekly review of trade, say: The commeroial situation changes little, but only for the better. Crop prospects grow more favorable with every week of satisfactory weather, and the hopeful feeling thus produced throughout the West and South is felt immediately in some increase of trade. Financial apprehensions are of no weight at present; money is superabundant. and the belief prevails that the treasury will prevent pressure or disturbance. Such is the spirit almost everywhere controlling, and business depends so largely upon sentiment that the hopeful expectations count for more than present duliness. All over the country the inactivity usual at this season appears to be intensified by special causes; by doubts regarding the tariff, by wars of rates, by labor disturbances, or by crop uncertainties. Yet there is everywhere confidence that better business is near at hand, and everywhere people are preparing for a season of unusual activity. The business of transportation is much demoralized by cutting of rates, and the growing irritation threatens to bring more serious reduction before long, and yet there is a prevailing faith that all quarrels will be adjusted somebow, when traffic bemes large, though no one can quite see how, The spreading demoralization of rates affects the stock market scarcely at all, average prices having actually risen during the past week about & of I per cent., notwithstanding a stagnation almost unprecedented. Better crop prospects account for much of the prevailing confidence. Even in winter-wheat regions, where the damage was greatest, the yield appears to be greater than was expected, while the outlook for spring wheat improves with every week of good weather. So of corn, which promises a large yield in spite of the had beginning in some sections. The violent and extensive storms of which the telegraph gives advices have doubtless done some harm, but prior to Thursday the weather had been generally most favorable. At nearly all interior points business is reported quiet or dull, though the excellent prospects for farmers are noted as justifying a confident feeling. Present inactivity makes the supply of money ample at almost every point, and the complaints of slow collections are less numerous this week. The great strike of ironworkers has little effect as yet, the belief being general that it will not last long. Yet the success of one large establishment in resuming work with non-union men, and the consent of others to the terms demanded by the association, seem to render a speedy settlement less probable. Reported sales of Western rails at prices equivalent to \$27.75 at Eastern mills indicate no material increase in demand. . Dry goods are dull, as is usual after July 1 and little new business appears. While nearly all the great branches of manufacture are affected by uncertainties as to the tariff, the impression grows in business circles that nothing will be done at Washington this year, and that the business kept back by uncertainty will swell

the volume of trade after Congress adjourns. Speculative prices are stronger for breadstuffs, wheat having advanced during the week 3tc; corn, 2ge, and oats, je. Cotton is also a shade stronger, with butter, cheese and potatoes, and oil has risen 24c. The general average of prices had fallen 74 per cent. from Jan. 1 to July 1, but has slightly recovered this week. Foreign trade improves a little, exports from New York for June being only 6 per cent. below last year's. The Treasury has taken in during the past week \$1,900,000 more than it has paid out, besides increasing its deposits in banks \$1,400,000. The exchanges at cities and towns outside of New York continue to fall below last year's, but this loss is in part the consequence of the great activity early in the year, and for the half year the exchanges outside of this city were but half of I per cent, below those of the first half of 1887. At New York, however, the decrease was 13.8 per cent; at Boston, St. Paul and Milwaukee, 5.5 per cent; at Cincinnati, 10.5, and at Balti-

gain of 7.9 per cent.; New Orleans a gain of 5.8 per cent, and St. Louis a gain of 1 per Business failures during the last seven days number, for the United States 192, and for Canada 22, or a total of 214, compared with 201 last week, and 154 for the corresponding week of last year.

more 13.8 per cent., while Chicago reports a

TRADE IN GENERAL.

Quotations at St. Louis, Philadelphia, Baltimore, Cincinnati and Other Points.

ST. LOUIS, July 6 .- Flour steady and unchanged. Wheat opened very strong and higher on higher cables and unfavorable weather and crop reports from Europe advancing home markets and light local re-ceipts, but after 12 o'clock there was a break and July closed 1 c. August se and December colower than yesterday's prices; cash sold early at 8112c, but at the close was offered at 80c; July, 8014 281 sc, closing at 801cc asked; August, 8012 282c, closing at 801cc; September, \$24c, closing at 811c; bid; December. 85 4 286 20. closing at 85 3c. INDIANAPOLIS MARKETS.

The Usual Summer Duliness Creeping Over Most Departments of Trade.

INDIANAPOLIS, July 6.

In most departments trade to-day moved sluggishly, which is nothing unusual at this season of the year. Dry goods men are doing but little aside from selling a few goods to replenish stocks which are broken or considerably reduced. Grocers are experiencing quiet times, sugar being the only article .just now meeting with large sale. The break in the coffee market has acted as a check on trade temporarily. The firmer tone, however, to-day indicates that for the present prices will not drop lower. Other articles in the grocery line steady and unchanged. The hide market is more active, but prices have not improved; possibly the break in rates east-bound may bring more activity to the market. Provisions are firmer in tone; no change in prices from the revised quotations of Tuesday. The produce markets are very active, poultry, eggs, butter, all meeting with good sale; receipts light. Small fruits selling well at unchanged prices. Vegetables more plenty and prices tending lower. Oranges and lemons in light supply, and, with a brisk demand, prices rule strong. The hardware men and lumberdealers report trade good and prices steady. Lumber-dealers are shipping a good deal of dressed stuff to the cities and towns in the different parts of the State. Other markets present no new features.

GRAIN. There was a good attendance on 'Change today and bidding was spirited, demand good and prices decidedly firm. Track bids to-day

ruled as follows: Wheat-No. 2 Mediterranean..... No. 2 red..... No. 3 red.... Rejected. Unmerchantable..... July...... August.... September Corn-No. 1 white..... No. 3 mixed.... No. 4 mixed.... Sound ear white..... Tellow ear..... Oats-No. 2 white....
